ANNEXED TO THE

BOSTON DIRECTORY.

☞ The utility of this sheet and the benefit to be derived by the advertiser, will, we believe, be acknowledged by those who reflect that the Directory has an extensive circulation through the business part of the city; is to be found in most or all the public houses; and, consequently, daily in the hands of those who visit the city on business; therefore, an advertisement inserted in it is exhibited longer to public view than through the medium of any other publication. This mode of advertising has met the approbation of the public in our southern cities—their Directories contain a great number of Advertisements, consisting of all descriptions of manufacturers and other permanent business.

JOHN BEATH'S

Patent Improved Trusses.

MR. BEATH invites those who desire an effectual remedy for the dangerous and distressing disease of *Rupture*, to call at his office, No. 672 Washington Street, sign of the *Eagle and Truss*—where he is in constant attendance, to adapt his Trusses to the particular case of the patient.

After the experience of nearly *thirty years*, Mr. B. is now able to state to the public, that almost every person who has strictly followed his directions, has in a short time experienced not only relief from pain and

Boston Annual Advertiser.

~~~~~  
danger, but a partial closure of the orifice, and in many cases a *total cure*—some of which he is at liberty to refer to.

Among the variety of Trusses made by Mr. Beath, are, *Patent Elastic Spring Trusses*, with *Spring Pads*; —Trusses without steel springs; these give relief in all cases of rupture, and in a large portion produce a perfect cure—they can be worn day and night: Improved *Hinge and Pivot Trusses*, *Umbilical Spring Trusses*, and Trusses with *Ball and Socket joints*: Trusses for *Prolapsus Ani*, by wearing which, persons troubled with a descent of the rectum, can ride on horseback with perfect ease and safety. Mr. B. makes also Trusses for prolapsus Uteria, which have answered in cases where pessaries have failed. Suspensary Trusses, Knee Caps and *Common Trusses* are kept always on hand, charged at the lowest prices. Machines for remedying deformities, Artificial Legs, &c.

Surgeons' Instruments and Trusses repaired at the Manufactory.

\* \* Ladies wishing for either Trusses or Back Boards can be attended to by *Mrs. Beath*.

### CERTIFICATES.

The remarkable ingenuity exhibited by Mr. Beath, in making Surgical Instruments and Trusses, and especially in accommodating them to particular cases authorises me to recommend his work to the attention of all who may have occasion for Trusses, Machines for remedying deformities and for the manufacture or repairing of Surgical Instruments.

JOHN C. WARREN.

This certifies that for many years I have been in the habit of recommending patients labouring under Ruptures, to make personal application to Mr. John Beath for the purpose of providing themselves with Trusses which are best adapted to the circumstances of their complaint. From the numerous patients that have put themselves under his care, I have it in my power to state that he is well acquainted with the varieties of the disease, and the best methods of treating them. His common Trusses are the most suitable for persons that cannot procure his personal attendance.

“**LADIES' MAGAZINE.**—This periodical has already obtained a reputation, even among the scattered critics of our land, which furnishes the strongest evidence of its continued popularity among all classes of readers. Its plan is universally approved; and that it is conducted with ability not only honourable to the lady who superintends the editorial department; but creditable to the taste of the publishers, and to the very character of the “literary emporium,” no one pretends to gainsay. Instead of deteriorating in interest or power, as is sometimes the case with exclusively literary publications, the Magazine is constantly exhibiting evidences of improvement.”—*Evening Bulletin.*
